LG Smart UHD TV UP751C series

The FILMMAKER MODE™

director's vision brought to life.

FILMMAKER MODE™ turns off motion smoothing while preserving the original aspect ratios, colors, and frame rates. This accurately delivers the director's original vision, so you experience the film the way they intended.

Active HDR

Down to the finest details

LG UHD TV provides vibrant color and accurate detail with Active HDR. Enjoy your favorite films in the same quality as the original with multi HDR formats including HDR10 and HLG.

Quad Core Processor 4K

Enhance everything you watch.

The processor removes video noise and creates more vibrant color and contrast. Low resolution images are upscale and reproduced at close to 4K quality.

Bluetooth Surround Ready

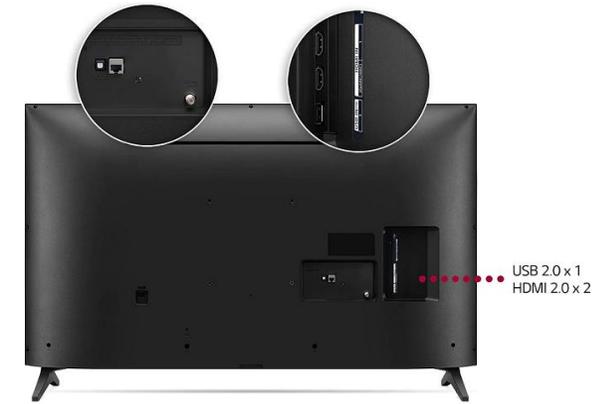

A clear home advantage.

Easily connect compatible Bluetooth speakers for a true wireless surround sound experience. All the action sounds richer and more realistic, bringing the big-game atmosphere to your living room.
