YVC-1000

ADECIA

A high-quality conferencing experience

Yamaha's innovative sound technologies delivers full, clear audio to every corner of the room for a smooth and stress-free conversation. Barco's ClickShare Conference range brings premium wireless conferencing and remote collaboration. **Even Better Together.**

Ease of use

Barco's ClickShare Wireless Conference range is **designed to work seamlessly** with Yamaha's audio devices and your display camera set-up without the hassle of physically connecting devices using cables and adapters. This makes remote meetings as **intuitive and straightforward** as face-to-face meetings.

The ADECIA ceiling microphone & line array speaker solution helps overcome challenges with implementation, configuration and room acoustics by providing all components required for a successful installation and automatic technologies that reduce set up time, costs and complexities.

Agnostic Unified Communication platform

Barco ClickShare and Yamaha audio conferencing solutions **work with all existing UC platforms**. Just bring your own meeting and collaborate seamlessly with all meeting participants.

Scalability

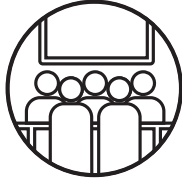

With a wide range of products and features, Barco ClickShare Conferencing and Yamaha UC conference phones offer device configurations that **perfectly match your room, group size, and collaboration needs**.

Yamaha's ADECIA family of communication products allow scaling professional audio quality to high-end conferencing spaces like boardrooms, training rooms and more.
